

## **THE REBELUTION**

### **DVD CONFERENCE FAQs**

#### **Can we add any original content to the DVD conference?**

The DVD Conference is designed to mimic the live conferences, but with the speakers projected on the screen. Music and skits may be added before or after sessions, but the teaching content during the event should be restricted to the contents of the DVD.

#### **Can the DVD be shown to an audience without hosting a DVD conference?**

A private viewing is allowed for up to 50 guests. The DVD may also be shown in a classroom setting within the context of a public or private school, during class time or as a school club activity. This is not a DVD conference, nor may registration be charged.

#### **Can I ever charge registrations without hosting a DVD conference?**

No, the only time registrations may be charged is for an authorized DVD conference. All DVD conferences must be registered with the National DVD Conference Coordinator by ordering a DVD Start-Up Kit and returning a signed copy of the Terms of Use.
